RETAIL PRICE LIST FOR 1931

Hopedale Nurseries

J. W. GRIESEMER, Prop.

HOPEDALE, ILLINOIS.

NO SUNDAY SERVICE. NO HELP HERE SUNDAY.

CLOSING OUT ENTIRE STOCK

Yes, I mean it. We are closing out and will keep at it till our stock is cleared off the entire 40 acres! Now, don't get scared, friends. There are several times 40 car loads of stock on the land, and it won't clear so quickly, unless I should sell it all to one customer. In the ordinary way of doing it, I will have a great lot of stock for you to select from, for several years. We have practically quit propagating and planting, to hurry the time that it is cleared.

What if we run out of the things you want? Of course the variety list will slowly grow less as well as the great variety of grades. While we have enough to be worthwhile to issue lists, we expect to buy items that we are out of that are most in demand. You will be served splendidly throughout the time that we ask you to come.

PRICES: Our prices, you will note, are very low compared with other standard nurseries. If you can use *quantities of stock*, we will make most attractive prices on your list. When it comes to selling in smaller lots, cost of handling these small lots is as much as ever. **ASK FOR PRICES ON LARGE LOTS.** We might be able to hand a happy surprise. Packing material is much cheaper, but labor is practically as high as it has been, since the peak. We will make prices to **SELL**, if your wants are sufficient.

Many of our customers in **WILD PLANTS** were alarmed that we were closing out the nursery. It is our intention to continue in **WILD PLANTS** as long as I am able to do so, and my health is now much better, I am hoping this may be many years. You see I am past 66 years "YOUNG". The recent long break in my health decided me to get out of the general nursery business. I foresaw to continue in **BOTH** lines would shorten my nursery experience. There is too much strain to continue both. With the one, I can get off to take a vacation sometimes. I am getting to the place where this is not a luxury, but a necessity.

Right **NOW** is the **ACCEPTED TIME** for you to get really worthwhile stock at a really worthwhile saving:

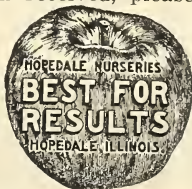

TERMS: 5 of a sort at 10 rates; 50 at 100 rates; 500 at 1,000 rates. Where 50 Apple, assorted, are taken in not too many sorts, we will make the 100 rate, etc.

Prices are for stock delivered here, packed to travel to destination, either in your rig, or delivered to carriers for shipment. All transportation is paid by customer, unless delivered prices are named. If wanted Parcel Post, include enough for postage. If any is left, it will be returned to you at time of shipment.

Prices named are net. If cash accompanies orders, 2 per cent allowed thru March on orders for \$5.00 or more. Less orders net. Where customers have established credit with us, 10 days will be allowed to receive and examine stock. If longer time is needed, likely we can arrange to carry you at 6 per cent interest, tho we have to pay 7 per cent at the bank.

WE GUARANTEE all stock to reach customers in good, vital order; to be of the sort and grade sold. Stock not in good order when received, please report at once, also any shortage, etc. It is mighty hard to adjust any claim after much time has passed.

Should any stock prove to be untrue to name, we hold ourselves ready to return the purchase price paid for it, or send the right sort, on reasonable proof of its not being the true sort. It is hereby mutually agreed between us and purchaser that we may not be held responsible any farther than this.

Please name second choice, in event we happen to be sold out in some sort or grade. It saves time and cost in filling orders.

DESCRIPTIVE CATALOGUE: We still have a supply of the old ones. They are only valuable now for the information and descriptions. If you have misplaced your copy, ask for another.

ORDER EARLY. It helps you and us, also. Stock is complete and your items will be reserved. If order contains any short item, we have time to get it for you.

REFERENCES: If you want to know about our standing, write Hopedale National Bank. Likely I can refer you to some neighbor, or friend as to my reliability and responsibility.

TREES ABOVE 3 in. caliper ARE NOT PACKED AT THESE PRICES. Packing larger trees is expensive, often costing more than we ask for the tree to carry safely. They are loaded in cars, on hayracks or trucks for you at the price named.

FRUIT DEPARTMENT

Central Illinois is sadly neglecting fruits, especially the HOME orchard and FRUIT GARDEN. Why? In the past it has been easier to raise other crops and buy fruits. Times are different now. Have your own fruits. It is handier and cheaper. For health, pleasure and economy, raise your own fruit. Start NOW. Please give second choice of sorts, and advise whether we may put in different size in same sort, to save time and correspondence.

While we have quit propagating fruits, account closing out, we will still have a most excellent stock for two or three years. Our prices are low, compared with other reliable growers.

Our fruits are listed both by caliper and by height. The caliper is correct, the height estimated and varies.

While our list in fruits is very complete, we can supply other standard sorts, if ordered in time. This service is yours for the asking.

For description of sorts, see our Descriptive Catalogue, which is old, but the descriptions are as good as ever. We still have copies of them.

Note our low prices, compared with other standard growers. We are closing out our general nurseries and on large orders, will quote very special, net prices.

"We want to rest on Sundays. Customers can come and look stock over, but we have no help on Sundays to fill orders."

Is Your Home Planted?

Ornamental Department

No use of telling people of your intelligence that Ornamental plantings are a necessity. They add to health, happiness and the value of your place, out of all proportion to what they cost, above other home improvements. They are growing into value whether you are at home or away, awake or asleep.

Our stock is very complete in sorts and grades. See the following pages. Compare prices with other reliable nurserymen. Of course we are not the lowest on everything. But, account of closing out this line, we can make you surprising prices, if you are interested in worthwhile amounts and can pay cash for it.

Look the department over carefully. You will find many interesting items.

If interested in **WILD PLANTS**, send for our last issue of **CHOICE WILD PLANTS**. It is very complete and very interesting.

We will be glad to sell you a single item, or five to fifty car loads. We have them. Come, look our stock over.

ORNAMENTAL TREES

Prices named includes packing for shipment up to 3 in. diameter. Trees over 3 in. are net, but will be loaded in cars, or on truck or hayrack at these prices. If to be packed for shipment, packing will be charged in addition, at cost. Very large trees are very expensive packed to travel safely by rail. Best in car lots, or by truck or hayrack.

EVERGREENS

We have many car loads of these. The very name reminds one that they may see GREEN trees and shrubs ALL the year thru. There are Evergreens to suit all locations. They are still not so abundant, and very much used in ornamental plantings. Special forms are more expensive. These must be grown from grafts or rooted cuttings, since seedlings do not come true to form, hence the greater cost. We have small amounts in many other sorts. Ask us for anything wanted.

Yucca Filamentosa

We still handle large quantities of this. Only the best, you can't afford to use any other. Labor of applying is too great to risk doubtful materials.

INSECTICIDES ARE NOT MAILABLE—
Don't order by mail. Post Office won't accept.

LIME SULPHUR. Solution: We do not handle this here. Using dry Lime Sulphur only. Our price is F. O. B., St. Louis, Mo. 50 Gal. barrels, barrel included (Barrels not returnable this season), 16½¢ per gallon. Same splendid grade we have always offered.

NICATINE-SULPHATE, Black Leaf No. 40—This is the most concentrate tobacco product, used for Aphids and other soft bodied, sucking insects. Harmless to the plants—it is a plant extract. Very effective for all lice, etc. 25¢ per ounce; ½ lb. for \$1.25; 2 lb. can for \$3.50; 10 lb. can, F. O. B. Chicago or St. Louis for \$12.50.

Mix 1 to 2 teaspoonfuls to 1 gal. water. ½ lb. to 50 gal. water. Be sure the soft bodies are hit. Deadly poison undiluted. Mixed to spray, will cause vomiting, tho no bad effect.

OIL EMULSION—U. S. Dept. Agriculture formula. We use and advise Scalecide instead. If Oil Emulsion is wanted. 50 to 55 Gal. barrels, 23¢ per Gal. F. O. B. St. Louis, Mo. Follow standard directions for mixing. Not in stock.

SCALECIDE—This is without doubt the best, most effective dormant spray material. Easy to apply, never clogs, does not injure the pumps nor the hands and face of the operator. Its not injurious to painted surfaces it comes in contact with. Without doubt, THE Perfect Dormant Spray. Trees sprayed with it for many years seem to become healthier and more thrifty. I find any other emulsion spray to be detrimental to trees after being applied 2 or 3 years in succession. USE SCALECIDE and be safe.

50 Gal. Steel drum, here \$30.00 plus \$3.00 for Bbl. returnable at same price.

15 gal. heavy drum, here \$11.50 plus \$2. for drum returnable at same price.

10 gal. light can, here \$10.00. Can included not returnable.

5 Gal. light can, here \$5.00. Can included. 5 Gal. Your container for \$4.75. 1 gal. can for \$1.50. Your container \$1.10 per gal.

After you use this material a few years, no other dormant spray will satisfy you. Our old customers are still with us, some having used it 15 and even 20 years. It surely is the best dormant spray material.

SULFOCIDE—Perhaps the strongest fungicide known. Be sure to mix according to directions, or browning of leaves may result. Safe and sure, if used according to directions. For summer spray, 1 qt. to 50 gal. water; 1 gal. to 200 gal. water. Per gal. can, \$2.50.

This is not for scale control, for fungus only. A summer spray. Not dormant.

These have their advantages. No waste from freezing, keep indefinitely, if kept dry. Readily mixed, convenient.

24 lb. in 4 lb. bags ----- 18¢ per lb.
4 lb. bag ----- 20¢ per lb.
1 lb. for ----- 25¢
½ lb. for ----- 20¢

For summer spraying, use 1 lb. to 1½ lb. for 50 gal. water. Potatoes, 2 lb. for 50 gal. water.

ARSENATE CALCIUM (Cal. Arsenate)—Use 1 lb. for 50 gal. water. Potatoes 2 lb. for 50 gal. water. 4 lb. bag, for 60¢; 1 lb. for 15¢.

More care is needed in using this to prevent foliage injuries.

24 lb. in 4 lb. bags, for ----- \$3.75
4 lb. for ----- .75
1 lb. for ----- .25

Use 8 lb. to 50 gal. water for the best fungicide.

LIME SULPHUR, powder: Account of its splendid keeping qualities, less mussiness and ease in handling, this is used now almost altogether instead of the liquid-lime Sulphur solution.

For dormant spray, use 12 to 14 lbs. to 50 gal. water. For summer spray, 3 to 3½ lbs. to 50 gal. water with Arsenate of lead. Since this, and Bordeaux mixture, each dissolve more slowly, we find it convenient to put a batch to soak, then get the outfit ready, and pour it into barrel or tank before filling with water. Use a little more the first time and pour residue in with second batch, which should be put to soak at once, while emptying the first lot, and so on. In this way, no time is wasted, waiting for it to dissolve.

100 lb. Powdered Lime Sulphur, for ---- \$13.00
50 lb. Powdered Lime Sulphur, for ---- 7.00
25 lb. Powdered Lime Sulphur, for ---- 3.75
10 lb. Powdered Lime Sulphur, for ---- 1.75
5 lb. Powdered Lime Sulphur, for ---- 1.10
1 lb. Powdered Lime Sulphur, for ---- .25

Both of the Arsenates mix readily into creamy consistency, before pouring into the barrel. All materials should be put in before filling the barrel to allow thorough admixture in filling the barrel or tank.

LARCO: This is liquid form of Sulpho-Tobacco soap listed below, more convenient for house use, tho more expensive. 2 oz. tins for 30¢.

PHARADICHLOBENZENE: (Paracide) for peach tree borers; 5 lbs., 35¢ lb.; 1 lb. for 40¢.

SPRAY SPREADER: Grassalli Cassein Spreader. Use with all sprays, except emulsified oil sprays, which are self spreading. Also, use to mix Sulphocide, as directed, to prevent injury.

1 lb. for 30¢; 5 lbs. for \$1.25.

SULPHO TOBACCO SOAP—This is a Larkin product, of merit. It is so convenient, and effective as an insecticide, fungicide and contract poison. Works in all three ways. Full directions on each package. 3 oz. for 10¢; mailed for 13¢; 8 oz. for 20¢; mailed for 27¢. 1 lb. for 30¢; mailed for 38¢.

TULIP POPLAR VENEER TREE WRAPPERS, 10x20 in., 30¢ per doz., \$2.00 per 100.

Helping you plan your planting: We can do this, if you come early, before the rush of the packing season. Through that, we are rushed so that it is usually next to impossible to take time necessary to do it right. Suggestions made free if we sell the material. A diagrammed sketch showing where to place plants, etc., charged at cost of getting it out.

NOT OPEN FOR BUSINESS on Sundays. We need the rest. Men are not here to serve you on Sundays. You may look and select stock, but we do not fill orders on Sunday.
